

NITRIC ACID AMMONIUM NITRATE (NAAN) 2 Abatement Project

Invitation to Tender: Supply of 1 (one) x E1010 New Tail Gas Heater and 1 (one) x E1013 New Primary Air Heater

Project Summary: The project aims to reduce nitrous oxide (N₂O) emissions from its Nitric Acid Ammonium Nitrate (NAAN) plants in Kwinana, Western Australia (WA) and will contribute to long-term sustainability of ammonium nitrate production in WA, decarbonisation of mining and agricultural supply.

CSBP Limited invites Australian companies to register their interest to submit bids for the supply of the E1010 New Tail Gas Heater and E1013 New Primary Air Heater for the NAAN2 Plant Tertiary Abatement Project.

Key Dates:

- **Expression of Interest Deadline:** Thursday, 14 November 2024
- **Bids Submission Deadline:** Friday, 29 November 2024 at 15:00 WAST (Perth)

Interested parties are requested to contact the Category Specialist - Projects via email by 14 November 2024 to receive the Request for Quote (RFQ) package. The RFQ package will include detailed specifications, conditions of quote, and all necessary documentation.
